# Fun for big and small

## Dear adventurers and little explorers!

We are pleased to introduce our Wander-Nik. He has left 13 traces in Viehhofen and is waiting to be found by adventurous children. Who is willing to explore the village with eagle eyes and track him down in 3 different places?

Take 3 photos with him and proof your success. If you show them at the Tourist Service Centre, you will receive a small surprise as a reward for your adventure.

We hope you enjoy the search!

## Viehhofen XXL

## Book owl Hermine

The bookworms among you will find their literary refuge here. Whether you prefer an exciting thriller, a romantic love story or an informative non-fiction book - Hermine has the right book for you.

# children in Viehhofen

## Playground

Following the narrow path between the hedge and Burgerbaron, you will find Viehhofen's large playground with a variety of play equipment such as swings, slides, climbing frames and a football and volley-ball pitch.

## Mystery hiking trail

Wander-Nik is a keen hiker who loves exploring the surrounding nature. His girlfriend Hermine is more of a passionate reader who prefers to immerse herself in exciting stories. To motivate her for a joint hiking tour, he has a great idea: he hides ten books along the hiking trail and combines them with tricky riddles. Can you help Hermine find and open the books?

## Kneipp basin

The Kneipp basin on the village square is a place of peace and relaxation. It offers you the opportunity to experience the healing power of water. The pool is filled with fresh, clear water, which is revitalising and refreshing due to its temperature. A wonderful place to cool your feet after a hike.

## Rest area

The rest area is located between Viehhofen and Maishofen just before Gasthof Glemmerhof. It is equipped with seats and bike racks so that you can park your bike safely and take a break. Enjoy the peace and quiet, watch the sheep and recharge your batteries for the rest of your ride.

**Tip:** Wander-Nik also really likes this spot.

# Hikes

A selection of hikes, including detailed descriptions, can be found on our website or are available as a hiking map from the Tourist Service Centre.

Enjoy the beauty of the mountains in the Salzburgerland with views of the surrounding mountain world and the Kitzsteinhorn glacier in Kaprun. For example, you can draw on the full potential of the 3-summit tour. Hike along the ridge to the individual peaks Scharberg (1,888 m), Geierkogel (1,853 m) and Sausteigen (1,912 m) with views of the Leogang Steinberge, the Saalfelden Steinberge, the Kitzsteinhorn and Saalfelden.

And if you're lucky, you might even see marmots „sunbathing“ up there.

# Geocaching

Geocaching motivates „big kids“ to get out of the house, enjoy nature and discover places from a different perspective. Like everywhere else in the world, cachers have hidden their treasures in Viehhofen.

The whole of Pinzgau is a true paradise with many hiding places.

# Hiking pin

Hard-working hikers should be rewarded. With this in mind, have fun hiking and punching! Because in Viehhofen all good things come in fours! 4 times „tweaking“ gets you a „**wooden hiking pin**“ in the Tourist Service Centre.

# Holiday with a dog

## **Spend your holiday with your dog in Viehhofen.**

Endless hiking trails past alpine meadows and refreshing mountain streams are waiting to be discovered by two- and four-legged friends.

However, it is important to adhere to a few guidelines to ensure harmonious coexistence.

Leashes are compulsory throughout Viehhofen and most of the neighbouring villages. As your dog sometimes needs to relieve themselves, there are 13 dog stations within Viehhofen. You will find these marked on the map bellow. Please take care to dispose of dog faeces properly.

## **Why should the dog faeces bag be put in the bin?**

Dog faeces contain bacteria that make the farmers' hay unusable, and cows can even become ill if there is dog faeces in the hay. Besides, such droppings are an unsightly souvenir on the soles of your shoes.

Let's take care of our nature together so that we can enjoy it for a long time to come.

### **Use of cable cars and public transport**

Dogs are of course allowed to use public transport or accompany you on a trip on the cable car. However, both a muzzle and a lead are required, no matter how small or large your dog is.

### **Behaviour tips with alpine cattle**

Sometimes here are meetings between grazing cows and dogs on alpine meadows. Play it safe with our behaviour tips:

- When meeting, always keep calm and do not run away.
- If you see a herd of any kind, shorten the lead.
- Try to go round the herd with your dog in a wide arc and never cross it.
- Always refrain from wild gesticulation and shouting.
- Put as much space as possible between you and the herd, but without rushing.
- If necessary, walk backwards and maintain visual contact.
